SEDULA NUTRIX

When we try to serve the world (or to understand it) we touch what is divine. We get our dignity, our courage, our joy in work because of the greatness of the far off end always in sight, always attainable, never at any moment attained. Service is one of the ways by which a tiny insect like one of us can get a purchase on the whole universe. If we find the job where we can be of use, we are hitched to the star of the world and move with it.

Congratulations and  
a thousand good wishes  
to the class of '70

J. J. Anderson

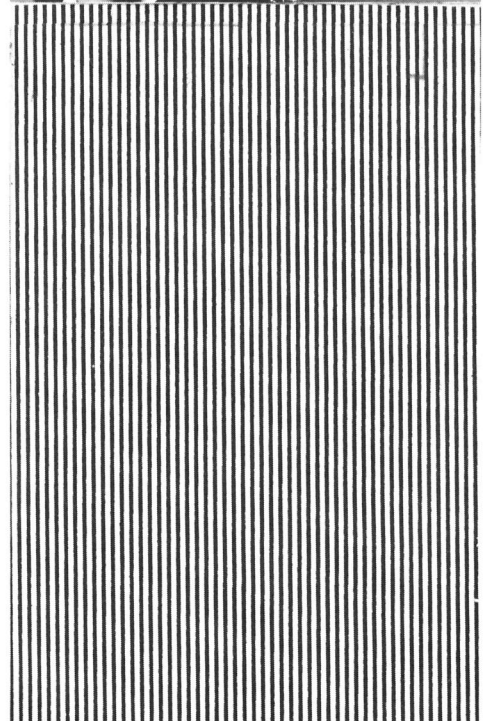

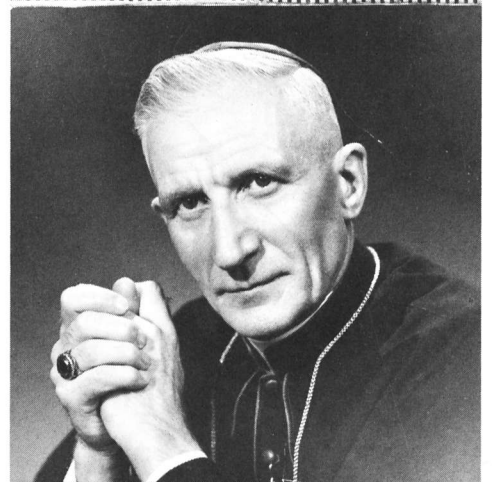

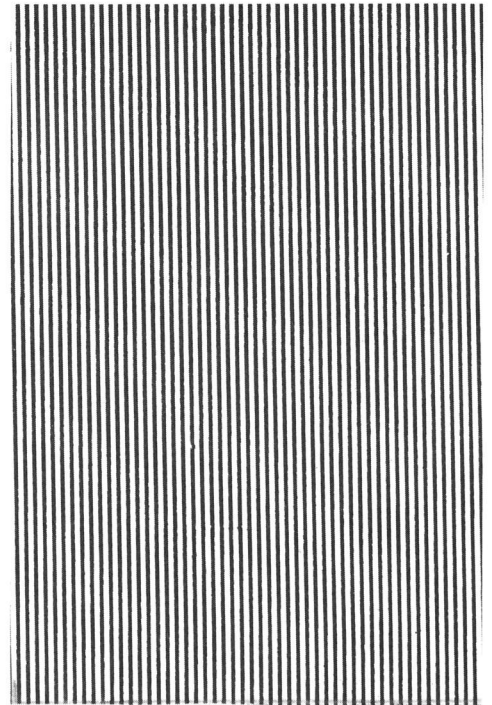

As the teaching of Nursing Science in Ontario is now transferred to the Universities, the change is no doubt to the advantage of this branch of education.

But we shall experience nostalgic sentiments at the disappearance as such of St. Joseph's School of Nursing, a long-established institution of nursing education, outstanding in its spirit, in its accomplishments and in the work of its graduates in our community.

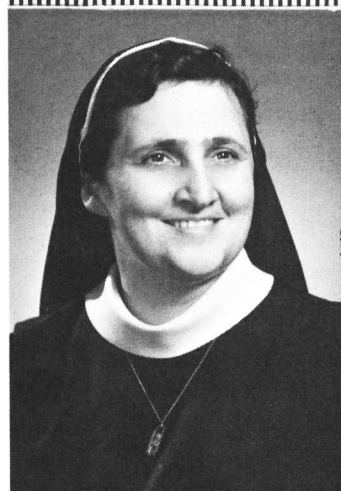

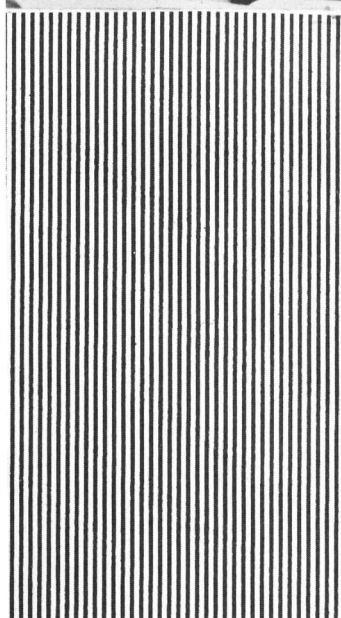

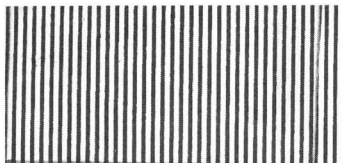

A like sense of loss will move us when in July, 1970, the last Yearbook to be published by St. Joseph's School of Nursing will appear. This beautiful and informative annual publication will be sadly missed by those who for many years have enjoyed its elegance and its contents.

We greet with interest the Yearbook of 1970, and bid a regretful farewell to these fine annuals that kept us informed of the aspirations and activities of St. Joseph's School of Nursing.

E.Q. Jennings  
Apostolic Administrator  
Diocese of Fort William

My dear students:

It is with sentiments of deep gratitude and hope that I extend to you, the last graduating class of St. Joseph's School of Nursing, the congratulations and good wishes of the Sisters of St. Joseph.

Since 1884, our Sisters have been associated with Nursing Education in Port Arthur. Hundreds of graduates have preceded you, each armed with the knowledge and nursing skills proper to her era, all inspired by the same unchanging ideal which you now cherish, "To serve, with love."

We are humbly grateful for the privilege of having been your associates during your years of preparation for service. We confidently anticipate a sharing in the joy which will be yours as you live out your chosen profession so replete with opportunity for building a better world.

May your deepest longings find an echo in the prayer of St.

Francis:

"Lord, make me an instrument of your peace,  
Where there is hatred - let me sow love,  
Where there is injury - pardon,  
Where there is doubt - faith,  
Where despair - hope,  
Where there is darkness - light,  
And where there is sadness - joy ... "

May Christ the Divine Consoler be your guide.

Sincerely,  
Sister M. St. Edward,  
Superior-General.

Sixty-four years ago, St. Joseph's School of Nursing, then known as St. Joseph's Training School, admitted its first class of student nurses. Now, in the name progress, the time has come to close our school to make way for a regional one. You are the last to graduate and having this unique honour, must grasp the mandate of Christian leadership. Through you, St. Joseph's School of Nursing will continue to exert its influence, its witness, its service to society. To quote Teilhard de Chardin:

"The task before us now, if we are not to perish, is to rebuild the earth."

This is your challenge. You, as the last, must bear the greatest commitment. Those involved in St. Joseph's School of Nursing from its opening day to its closing, and those who have proudly graduated from its portals, are depending on you. Fail them not - Witness Christ!

Sister St. Julia, C.S.J.,  
Administrator.

## YEARBOOK MESSAGES

This is no customary class of nursing students. This is no ordinary yearbook. This is no routine year for the School of Nursing and the hospital.

If there is any tendency to despair the fate that decreed the demise of this school, dispel it. Favor instead the satisfying knowledge that the years of this school flourished with phenomenal advances in nursing and founded concepts which will remain fundamental to nursing practice. Accept that the future will grow on the solidity of the past to provide for the needs of the new day.

In the words of Marcus Aurelius, second century moralist:

" Observe constantly that all things take place by change, and accustom thyself to consider that the nature of the universe loves nothing so much as to change the things which are, and to make new things like them. For everything that exists is, in a manner, the seed of that which will be. "

G. E. Steinhoff, M.D., C.M.  
Medical Director

Congratulations to the graduating class of 1970! As the last graduating class of St. Joseph's Hospital trained nurses you are following in a fine tradition that stretches back to 1907.

The board of Directors, the Medical staff and the Sisters of St. Joseph's are proud of the dedication and service that St. Joseph's Hospital trained nurses have provided over the years.

St. Joseph's Hospital is pleased to be associated with the recently formed Lakehead Regional School of Nursing. This school will provide the necessary education for the increasingly demanding and complex kind of nursing required by our society. I am sure that "The whole will be greater than the sum of the parts. "

D. Morgan, President Board of Directors  
St. Joseph's General Hospital

To the St. Joseph's General Hospital School of Nursing:

I am sure you will all have a twinge of regret as you write the pages of the last year-book for the St. Joseph's Hospital School of Nursing.

However, it is my pleasure as President of the Women's Auxiliary to express my thanks to the nurses for the assistance and cheerful co-operation they have shown in all our volunteer services over the years.

Good luck in your nursing careers and may God bless all of you.

Sincerely,

Mrs. T. J. Montemuro,  
President.

It is with mixed emotions that I look back on our Alumni. Like all groups we've had our ups and downs but our successes at bridge and Graduation Dances will long be remembered. The life-long friendships we have made and the occasional reunions when we all "remember when" puts our three years as students and years as Alumni members amongst the best years of our lives.

To you the Graduating Class of 1970 may I extend our best wishes for your future. As the final class graduating from St. Joseph's School of Nursing and becoming the final new members of our Alumni your job will be the hardest in carrying our torch forward. Success to you all!

Barbara Baxter  
St. Joseph's Nurses Alumni

As one looks back over the years, one can recall all the changes which have taken place.

There have been many advances in Nursing Education, the School of Nursing being actively involved in the planning for the Basic Degree Program in Nursing at Lakehead University in 1966 and the opening of the Lakehead Regional School in

1968.

In the meantime, the hospital has been completely rebuilt and we now have one of the most up-to-date hospitals in Ontario. Since the School of Nursing first opened its doors in 1904, we have graduated 817 young adults, many of whom are practicing nursing today in the four corners of the world.

You too, dear

Graduates, will be venturing into the many facets of health care, carrying on the fine tradition of your Alma Mater. You have a high standard to maintain and you have displayed every evidence of achieving and honouring your chosen profession in the years to come, as a Christian nurse.

As the final graduates of your School of Nursing, I cannot

urge you too strongly to continue your education in order to keep abreast of the ever-changing Society, always keeping in mind the motto of your School of Nursing - "Whatever you do to the least of my brethren, you do unto Me."

S. Matt. 25:40

God bless and guide you all. You have worked hard and deserve a great deal of credit.

(Mrs.) A. J. Hagger, Reg. N., B.Sc. N.,  
Director, School of Nursing.

### Journey Through a Void

Two walked along that road  
That fine, long road which led to oblivion  
And yet those two with all their thoughts,  
Their joys,  
Their aspirations,  
Cared little or knew not of the pending plight.  
The road wound tortuously through the brambles.  
Of society

And the thornes

Of hatred

And traversed, by a great bridge,

The River of Love.

Two longed for the bridge to collapse that  
they might bathe in that river — —

But they knew it could not be so.

They continued and soon began to mount  
A hill — —

A hill which had but one path up.

The path was hard and full of stones  
Which cut and stung their feet — —

But nothing now could stop their journey.

Near the top — a sign

— Go here

Go there —

A decision — quickly made — they passed on  
Not knowing that their decision formed their life —

A life which in their hearts was conceived,

That they might meld with mankind.

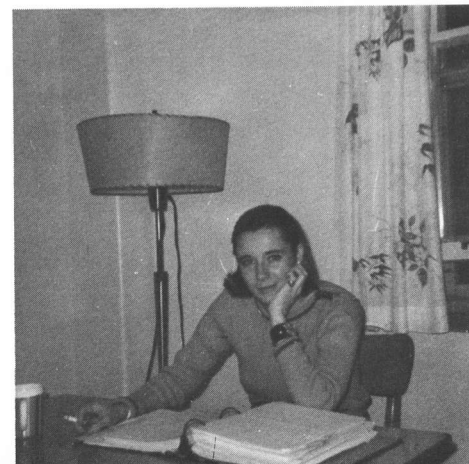

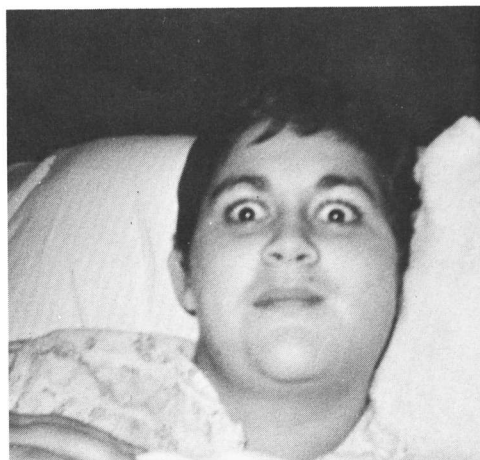

The river had turned and was, as the two perceived,  
Beneath their feet

— And it was warm —

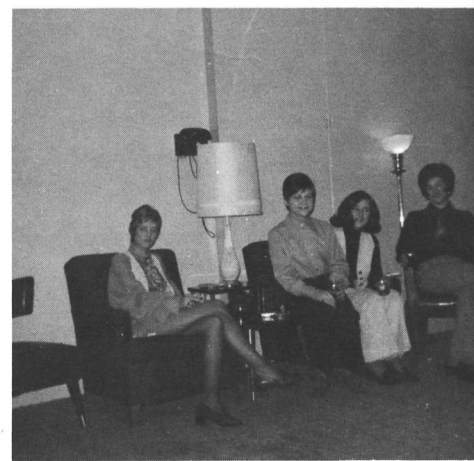

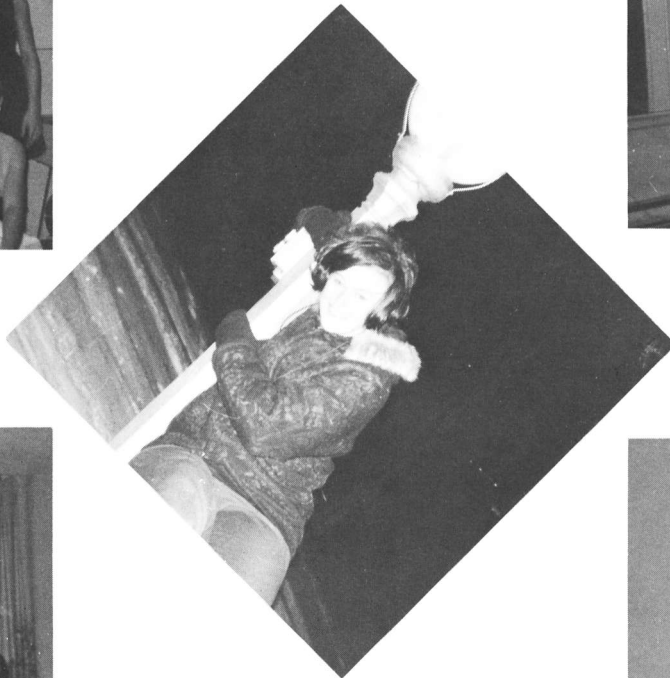

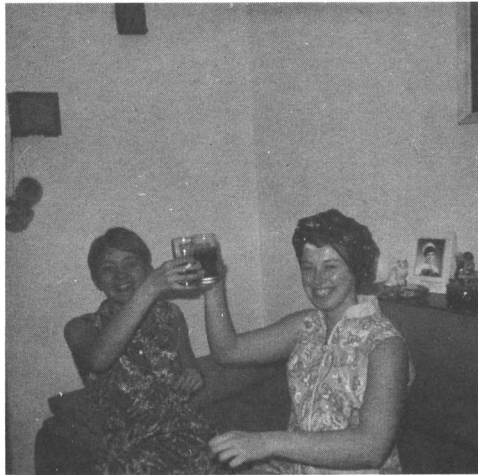

— And it was good.

My dear Graduates:

It is a distinct pleasure for me to respond to your invitation to write a farewell message and a brief history of St. Joseph's School of Nursing for the last issue of SEDULA NUTRIX. No account of the School of Nursing can be complete unless it is seen as part of the growth and development of St. Joseph's General Hospital. This growth is a story of trust in Divine Providence and of courageous faith in people whose loyalty has ever endured.

The Sisters of St. Joseph arrived at Prince Arthur's Landing in 1881 to open an elementary school in the convent on Algoma Street. Very shortly afterwards, as the railway pushed westward, the Sisters found themselves caring for accident and typhoid victims. Soon the need of a hospital was felt by Mother Monica who was encouraged by energetic, far-sighted and public-spirited citizens of the local community. From the archives of the Public Libraries of Thunder Bay and the News Chronicle office we learn that Reverend Father Hamel S. J., Pastor of St. Andrew's Church, in the presence of parishioners and townspeople of other denominations laid the cornerstone of the first hospital on September 9, 1884. Successive additions were added in 1900, 1905, 1915 and 1928, all of which were developed under the guiding hand of Mother Monica. Until the day of her death, January 23, 1931, she devoted herself tirelessly to the sick and injured. In 1934 the city of Port Arthur reached the half-century mark as did St. Joseph's Hospital. At this time Mother Monica was honoured by the citizens of Port Arthur by the erection of a memorial statue of St. Joseph which still stands proudly on the hospital grounds facing Algoma Street.

In 1955 it was obvious that the hospital facilities were in need of replacement. A building program was launched which, over the next twelve years, saw the demolition of the entire hospital and its replacement by a \$7,000,000.00 structure.

Like the Hospital, the School of Nursing too had a humble beginning. Love and self-sacrifice were the foundation stones of this great undertaking. "Amen I say to you; as long as you did it to one of these, the least of my brethren, you did it to Me." (Matt. 25:40). "Quod Minimus mihi Fecisti" is the motto of St. Joseph's School of Nursing until the present day.

In 1904 when the School of Nursing was opened, the student nurses lived in a portion of the Hospital. With the growth of the School it became necessary in 1928 to find more residence space; so the Neelin Homestead on Court St. Ridge was purchased and used. Later the beautiful Conmee Residence became a valuable adjunct to the School of Nursing. The student nurses benefited from the group living made possible for them in these "homey" surroundings. In 1955 still further growth and changes in Nursing Education required more and better facilities for teaching. A modern, beautifully-equipped, one

hundred and eight bed Nurses' Residence and School of nursing was built at a cost of \$700,000.00. During the next ten years the education of nurses underwent many changes. St. Joseph's School of Nursing can be justly proud of the contribution it has made to the nursing profession. Because of advances in medical knowledge and other technological discoveries the need to make more effective use of highly skilled personnel was obvious. It was arranged in 1961 that student nurses of all three Lakehead Schools of Nursing would take certain subjects at the Lakehead College of Arts, Science and Technology, which later became Lakehead University. The individual schools however remained autonomous. It soon became apparent that further regional planning was necessary. The outcome was the formation of a joint Planning Committee, composed of representatives from Port Arthur General, McKeller, St. Joseph's and the Lakehead University, to chart the course of Nursing Education for the Lakehead. In 1967, after six years and countless meetings the Lakehead Regional School of Nursing became a reality. This meant that the original Schools of Nursing phased out. This peaceful yet vibrant closing of St. Joseph's School of Nursing brings to mind the Scriptural passage from John 12:24: "Unless the grain of wheat falls on the ground and dies, it remains only a grain. But if it dies it yields rich harvest." Similarly, on January 1, 1970, the cities of Port Arthur and Fort William were phased out to make possible the greater city of Thunder Bay.

My dear Graduates, doubts, fears and tensions are certain to be present as you leave the known way to develop newer concepts of nursing education to meet new trends in the ever-changing field of health. In your pursuit of excellence, I leave you with this thought so well-expressed by M. L. Haskins -

I said to the man  
who stood at the gate of the Year:  
"Give me a Light  
that I may tread safely  
into the Unknown"  
and he replied:  
"Go out into the Darkness  
and put your hand into  
the Hand of God.  
That shall be to you  
better than Light  
and safer than a  
Known Way."

In closing it is fitting to pay tribute to all who have given of their talents to St. Joseph's School of Nursing in any way during the past sixty-six years, and in particular to the devoted Directors of Nursing, Faculty and 845 Graduates. In the name of all I proudly salute and bid farewell to a truly great School of Nursing.

God bless you.  
Sister M. Patricia.

Words we speak are seed.  
What will the harvest be?

### **Sheila Stuski**

La plus perdue de toutes  
les journées est celle  
au l'on n'a pas ri -  
The most wasted of days is that  
on which one has not laughed.

## Wendy Utton

Life is a chronicle of friendship.  
Friends create the world anew each  
day.

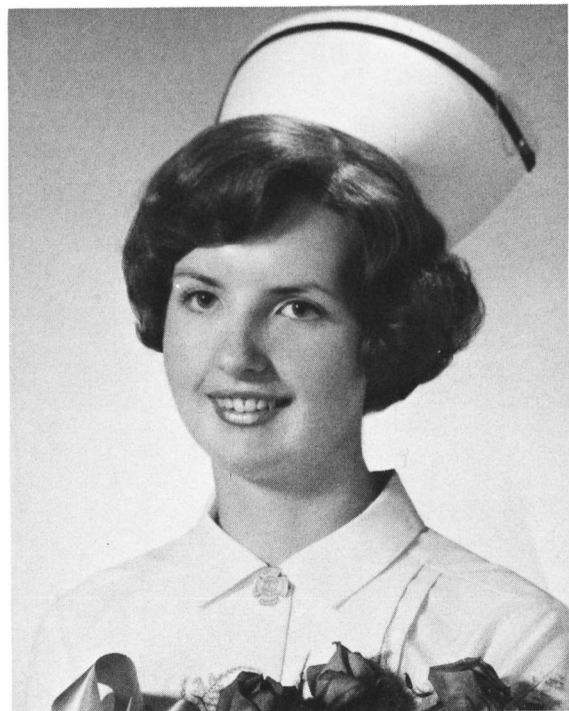

Without their loving care, courage  
Would not suffice to keep hearts  
strong for life.

Helen Keller

## Lynn Williams

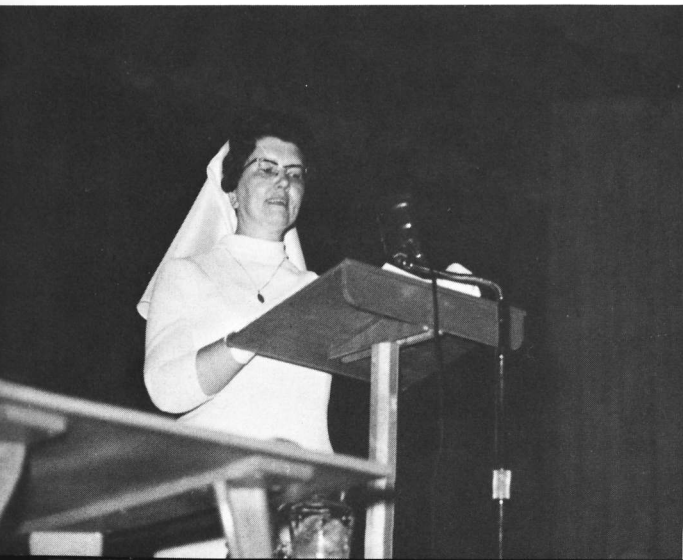

Though nothing can bring back  
the hour  
Of splendor in the grass, of  
glory in the flower;  
We will grieve not, rather find  
Strength in what remains behind.

## Graduation 1970

## To the Class of 1970

Your Excellency, Bishop Gallagher; Mr. Chairman; Reverend Fathers; Reverend Sisters; Distinguished Guests; Dear Parents and Devoted Friends:

This evening, you see standing before you the members of the graduating class of 1970. We consider it an honour, and we are very proud, that we are privileged to be the last graduating class of St. Joseph's School of Nursing. We have a feeling of sadness when we think that the striped uniform will be seen no more in our hospital corridors, but we are happy to think we contributed a part of ourselves to you.

Reality has awakened us at a very important milestone in our lives; a milestone which once seemed remote but is now suddenly near at hand. Especially now, as our student days are over and we become graduate nurses, we realize that our knowledge is far from complete. Only the foundation has been laid. We must strive to maintain the standards instilled by our hospital; acquire new skills and develop an even keener interest in the advances of medical science.

The opportunities are limitless if we are willing to work for them. We are the ones responsible for setting and maintaining the standards of today's society and for those to come. How we act and the example we give is how we will be remembered.

Nursing is indeed a rewarding profession. The reward we have received is not counted in dollars and cents but in a feeling of accomplishment in having helped someone else.

As we step into the pathway of our new profession, we would like to express our gratitude to many persons for their support and interest. Our sincere appreciation is extended to the Sisters of St. Joseph's Hospital for their many favours; our Administrator, Sister Leila Greco; Mrs. Hagger, our present Director; Miss Wallace, our Assistant Director; Sister Marion, Director in our first year; and the Doctors; all of whom

gave so willingly of their time to bring us to our final goal. A special thanks to the teachers who through understanding, patience and discipline have molded the somewhat stubborn and indifferent minds into mature and capable young nurses. To our supervisors, staff members and housemothers, we say thanks for directing us along the path leading to today.

How can we thank our parents? Our very first teachers who have made this important day a reality by their constant direction and encouragement -

"As someone once said,  
This will change my life completely,  
But what I have brought with me  
from the home of my childhood  
will always remain with me,  
I Will Remain The One I Am."

Mom and Dad: we hope that the pride we see in your faces tonight may be reflected back to you in our lives tomorrow as proof of our great confidence in you.

We may not stop and appreciate each other. Had it not been for the companionship, the encouragement and the interest that we drew from one another as students, we could never have realized this day. We have come to know each other; our fears, hopes, dreams and sorrows were shared by others. Perhaps this is why a joyous parting brings with it a cloud of sadness.

We cherish many happy memories ... the never endless dating game, the stress of examinations with their two hour intermissions and what about suicide leap out the second floor window! We have developed a strong bond of companionship welded by laughter and tears. Truly the old cliché "United We Stand" holds true in our case.

Lastly, we wish to pay tribute to all those patients who were under our care during the last three years. Your confidence in our ability gave us the opportunity of putting our theory into practice. We can only hope you have learned as much from us as we have learned from you.

There are many times the future appeared bleak and we became discouraged, and it was at this time the patient in pain smiled his thanks for a small favour or a tearful child held his arms up in confidence for what we could do - and we were able to continue with a more optimistic spirit. It is because of the trust you placed in our skills that we have learned the greater meaning of:

QUOD MINIMUS MIHI FECISTI

Whatsoever you do to the least of them, my little ones,  
you do unto me.
